

CAMS 2016

Advancing Materials and Manufacturing

The 5th conference of the Combined Australian Materials Societies;
incorporating Materials Australia and the Australian Ceramic Society.

December 6-8
Swinburne University
of Technology
Melbourne, AUSTRALIA

PARTNER AND DISPLAY PACKAGES

Join Australia's largest interdisciplinary technical meeting.

Swinburne University of Technology

Advanced Technologies Centre (ATC)
427-451 Burwood Road
Hawthorn VIC 3122

This is your opportunity to meet and network with an expected attendance of over 200 of the industry's leading minds.

The 5th conference of the Combined Australian Materials Societies; incorporating Materials Australia and the Australian Ceramic Society. Join Australia's largest interdisciplinary technical meeting on the latest advances in materials science, engineering and technology. Our technical program will cover a range of themes identified by researchers and industry as issues of topical interest.

- Additive manufacturing
- Advances in materials characterisation
- Cements and geopolymers
- Composites in roadmaking and bridge building
- Durable materials for demanding environments
- Materials for energy generation, conversion and storage
- Metal casting and thermomechanical processing
- Nanostructured and nanoscale materials
- Nuclear waste forms and fuels
- Raw materials processing
- Solar energy conversion
- Thin films and coatings
- Wear-resistant materials
- Advanced manufacturing
- Advances in steel technology
- Biomaterials
- Ceramics
- Corrosion and degradation of materials
- Innovative building materials
- Light metals design
- Materials simulation and modelling
- Membrane manufacture, materials and applications
- Microstructure and properties of composites
- Nanostructured materials and interfaces
- Refractories
- Surfaces and interfaces
- Utilisation of waste materials
